How was your experience?

Since switching to Roylemac10 for our structural warranties we have found the process to be very smooth in respect of signing off technical drawings right through to the site inspections and receiving the final certificates. **Jerome Roith Operations Director
(CARRINGTON GROUP)**

How was your experience?

We contacted Michael at RoyleMac during the height of the Pandemic as we had been let down by a previous broker at the 11th hour. Our development of 9 new build detached houses was well underway and Michael acted in a professional manner by outlining the potential providers we could source for the Structural Warranty Insurance. He provided us with a couple of options and explained the merits of each one. Due to Covid there was added pressure on our business to deliver the scheme and Michael ensured there was no stress in completing the process. Furthermore, when it came to closing off the completion certificates Michael was hands on and always available to deal with issues.

Would you use our services again?

I can highly recommend their company.
